

REMARKS

Applicant respectfully requests this amendment be entered prior to issuance of the above-identified application.

Figure 3 and the corresponding disclosure relating to Figure 3 are corrected to conform with the original JP application. These changes are directed solely to background material on the channels of the proposed 5 GHz band for the IEEE 802.11 standard. These changes are needed to provide correct background information in support of the invention.

No changes have been made to the claims or any material in the specification which may impact upon the scope of the claims. Accordingly, no additional search or examination is required for these changes. These changes were not presented earlier because there were no Office Actions prior to the Notice of Allowance and this mistake was not discovered until a final review was conducted prior to issuance.

Accordingly, in view of the foregoing amendment and remarks, it is respectfully submitted that the changes herein comply with all of the requirements stated in MPEP § 714.16 for this amendment to be entered.

No additional fees are deemed to be required for the filing of this amendment, but if such are required, the Examiner is hereby authorized to charge any insufficient fees or credit any overpayment associated with the above-identified application to Deposit Account No. 50-0320.

If any issues remain, or if the Examiner has any further suggestions, he/she is invited to call the undersigned at the telephone number provided below. The Examiner's consideration of this matter is gratefully acknowledged.

Respectfully submitted,
FROMMER LAWRENCE & HAUG
LLP
